

NEWS RELEASE

April 3, 2019
BroadBand Security, Inc.

BBSec received orders of Credit Card Security Audit and Consulting Services from Companies in Vietnam and Cambodia

~We support rapidly growing cashless security needs in APAC region~

BroadBand Security, Inc. (Head office: Shinjuku, Tokyo, CEO and president: Mochizuka Akira, hereinafter "BBSec") announces that it has accepted orders from "Lotte Finance Vietnam" (Head office: Hanoi, Vietnam) and "KB Daehan Specialized Bank" (Head office: Phnom Penh, Cambodia) in PCI DSS※ (Security Standard in credit card industry) audit and consulting services.

Interest in cashless society is growing fast in accordance with "Cashless Vision" of METI in Japan. Demand for cashless security is expected to grow rapidly in the near future in APAC (Asia Pacific) region, too. While we have been receiving lots of inquiries from many banks and companies in Japan, we acquired below orders from "Lotte Finance Vietnam" (finance company wholly owned by Lotte Card) and "KB Daehan Specialized Bank" (Cambodian subsidiary of KB Kookmin Card).

- **Consulting service for PCI DSS compliance**
- **On site assessment for Attestation of Compliance (AOC)**
- **Vulnerability assessment for keeping PCI DSS compliance**

We will intensify our sales activities in the APAC region.

BBSec is a security service provider founded on the vision "Make Japan's IT network the world's most robust." We are expanding our business with companies from around the world beyond Japan, for which purpose we have set up a global business team.

※PCI DSS (Payment Card Industry Data Security Standard) Security Standard in credit card industry

About BBSec

BBSec is a total security service provider providing IT security diagnostics, operations, maintenance and digital forensics. Founded in November 2000, with the vision "Make Japan's IT network the world's most robust," we are supporting IT securities of a variety of companies ranging from major corporations, telecommunication carriers to IT ventures, leveraging high technology, abundant experience and extensive intelligence. In particular, in PCI DSS, which is an international security standard in credit card industry, we have pride in large number of auditors and plenty of audit results in Japan.
