

# NEWS RELEASE

2<sup>nd</sup> October 2020  
Broadband Security, Inc

## **Thai joint venture certified as Credit card Security Assessor Company "QSAC" ~To be Asia's No. 1 Credit Card Security Provider~**

BroadBand Security Co., Ltd.(Headquarters: Shinjuku-ku, Tokyo, President and CEO: Akira Mochizuka, herein call "BB5ec") will inform you that,Joint Venture BroadBand Security Assessment (Thailand) Company Limited (Location: Bangkok,Thailand Representative : Arsira Kawaree, herein call "BB5ecTH"), established on January 3, 2020, has been certified by PCI SSC\*1 as an international qualification "QSAC" \*2 that can assessment compliance with PCI DSS\*3, the international security standard for credit cards.

### **【Background】**

In Japan, where the transition to a cashless society is accelerating, cashless security is one of the important measures of each government in the APAC area including Thailand.

In Thailand, PCI DSS is being developed as one of the security requirements for financial institutions under the Bank of Thailand and important contractors.

Under these circumstances, BB5ec TH, as one of our important APAC bases, will fulfill its responsibilities as QSAC to financial institutions, entrusted companies, etc. that need to improve and maintain payment card security.

### **【Main services provided by BB5ecTH】**

- Consulting service for PCI DSS compliance
- Onsite assessment service for issuing compliance certificates
- Technical security assessment service for companies not directly related to PCI DSS

In addition to the above, we also provide the following services with the support of our company (BB5ec).

- Various services such as vulnerability diagnosis and daily log monitoring required for PCI DSS compliance and maintenance
- Consulting and assessment services for PCI DSS related standards such as P2PE and PCI 3DS
- Remote (English) services such as vulnerability diagnosis for companies that are not directly related to PCI DSS

We are a security service provider established with the concept of "making Japan's IT network the most robust in the world", but now we have set up a specialized department for global support, not

only in Japan, and do business with companies all over the world. Taking this order as an opportunity, we will continue to strengthen our sales activities in the APAC area.

*\* 1 Payment Card Industry Security Standards Council: An organization that operates and manages credit card security standards established by five international card brands (VISA, MasterCard, American Express, Discover, and JCB).*

*\* 2 Acronym for "Qualified Security Assessor." International certification for performing the assessment on the compliance with the PCI DSS, the international security standard for credit cards.*

*\* 3 Payment Card Industry Data Security Standards: An industry standard for security established by PCI SSC for the purpose of protecting cardholder information and realizing secure transactions.*
