

TABLE TRAC INC. (*CasinoTrac*) SIGNS EXCLUSIVE LICENSE AGREEMENT WITH TOKYO BASED BROADBAND SECURITY INC. FOR ADAPTATION OF IT'S CASINO MANAGEMENT SYSTEM FOR THE JAPANESE GAMING MARKET.

Tokyo Japan based **BroadBand Security, Inc. (4398.T)** engages in the business of information technology, security management and consulting services. The company trades on the Tokyo Exchange. BBSec has signed an exclusivity contract with **Table Trac Inc. (TBTC-OTCQB)** to integrate the **CasinoTrac casino management system (CMS)** to the Japanese Gaming market where legalized gambling was officially approved in September of 2018.

The project, spearheaded by BroadBand Security, Inc., will consist of a working team of companies to provide a comprehensive resort and casino management package for the **"JAPAN INTEGRATED RESORTS COMBINED MANAGEMENT SYSTEM PROJECT."**

Japan is expected to become the second largest gaming jurisdiction in the world, behind only Macau, creating between 15 and 25 Billion dollars a year in revenue. According to UNLV, 2017 gross revenue for all of Nevada from gaming sources, was just over \$11 Billion.

Table Trac's casino management system is in over 150 casinos in 12 countries and is multi-lingual, multi-currency and multi-tax reporting.

"I want to thank BroadBand President Akira Mochizuka, Executive Director, Yasunari Kumono and Dr. Takafumi Shido (Chief Engineer) for the privilege to become part of BroadBand's vision for a **JAPAN INTEGRATED RESORTS COMBINED MANAGEMENT SYSTEM PROJECT**. This is truly a watershed moment for Table Trac. We are honored to contribute to this team of worldwide recognized companies where Table Trac's **CASINOTRAC** system will be integrated with Japanese systems as they create the **ALL JAPAN PROJECT.**" stated Chad Hoehne, Table Trac founder, CEO and Chief Technology Officer.
